**Revive & Thrive Committee Introduction**

2/14/2024

Hi everyone! My name is Megan Gulley lot 251 and I am the committee chairperson for the Chateau Chaparrals newest permanent committee named the “Revive & Thrive Committee”.

Our founding committee members include :

Megan Gulley, lot 251 (Myself)

Jaime Larsen, lot 139

Lori Naranjo, lot 140

Amy Volturo, lot 141

Peggy Gulley, lot 157

**Mission Statement:**

The mission of the Revive & Thrive Committee shall be to improve the shared community space to support the physical and mental well-being of the CCOA community.

**Current Main Focus:**

To remove broken items, redefine the space and improve fitness equipment in the loft area.

How are we going to accomplish this?

- in the coming weeks there will be a survey sent out to every CC member. This questionnaire will help us understand how community members would like to use the space and what exercise equipment, games, furniture, etc would be wanted. The committee will analyze the answers and report the results to the community.
- After results are reported, we will propose changes to be approved by the board before changes are made. Then we will fundraise based on an estimated budget need for our current main focus.
- A goal this year will be to have a line added in the budget for this space so in the coming years there will be adequate maintenance and upgrades.

- Because this year's budget has already been set, we will rely heavily on our community's generosity in monetary donations, approved equipment donations, and volunteers.
- There are many more challenges than we may think to accomplish this task, and this committee is set to hear out the members of this community so we can make as many people's requests a reality in the space.
- We will have an official email set up when the survey goes out so if you have any additional questions or requests that were not addressed you can contact us directly.
- **VERY IMPORTANT:** We want a solution-based mindset. This means if you have complaints or problems that you come to the table with possible solutions. Let's figure it out together!

I look forward to the improvements to be made!
